Improving provision of PE and sport to benefit all children, including the disadvantaged, vulnerable and gifted and talented.

Item/Project	Cost	Objective	Outcome	Next steps
Life Education Whole School Delivery The healthy way	£2670	To raise awareness to live a healthier life style – eating, physical activity, sleep	Parents attended workshops with children Children had a better understanding of how to keep health	To continue annual event to build on existing knowledge

		& exercise & emotional wellbeing	Parents understood the benefits of healthier choices and as a result quality of packed lunches has improved. There has been an increase in % of children receiving school meals because parents appreciated that school meals are a healthy option.	
Health and Drugs education session	£350	To ensure expertise & build confidence & knowledge of staff to deliver the programme	Increase in uptake of school lunches Staff training	Continue to develop health programme
Whole School Drug Education & Health education subscription	£2085	Implement whole school scheme (including planning & mapping) To develop staff expertise in drug education	All year groups have support to deliver during a drugs programme as part of health month	Ensure pupils receive good drugs education understanding how it impacts on health
Coaching of new and inexperienced staff & running extra curricular activities	£4690	To develop sustainable skills on teaching staff To provide afterschool clubs	Staff better skilled to deliver effective PE provision Increase participation in physical activity	Continue to build on knowledge and understanding Develop outdoor & adventurous activities
Total Spend:	£9,795			

What is the impact of this additional funding and how does it support academic performance?

Our extra-curricular sports provision helps us to improve;

➤ Behaviour

- Attendance/punctuality
- Attitudes
- Homework
- Achievement in class

We aim to ensure that children love to participate in sports clubs and that physical activity is used effectively as a motivational tool to improve pupil performance.

Impact on pupils:

- *One of the boys at our school refused to work until he got involved in sports at the school. His attitude changed and he started to excel in class. He was a very influential figure in the year group and his change in behaviour had a major impact on the rest of the children in the year group.*
-

- There is a significant increase in the participation of girls in after school clubs. One girl is motivated to finish her homework and hand it in on time so that she can attend the club.
-

- 'x really enjoys football. His confidence has developed over the term.'
- *One gifted and talented footballer at Conway has improved his attendance because he loves coming to school to play football.*

Participation

Currently there are **140** pupils involved in sports clubs across the school.

This has increased from 78 pupils in the last academic year.

Attendance

2008/09	92.8%
2009/10	92.8% (National 94.8%)

2010/11	93.3% (National 94.8%)
2011/12	94.8% (National 95.92%)
2012/13	94.96% (National 95.2%)
2013/14	95.4% (National 96.1%)
2014/15	95.9% (National 96%)
